RELEVANT COURSEWORK

Stylight Now, Tech Lead

Managing Product Development – CDTM

October 2015 – January 2016

Munich, Germany

- Our team developed a simple and easy direct checkout solution for the fashion aggregator Stylight, a CDTM startup, to raise the conversion rate throughout their platform, but especially in their apps.
- Created iOS app (UI/UX + code) which will be further refined by Stylight and eventually incorporated into their live platform.
- Learned a lot about business development, user and market research, project management, and collaboration in a diverse team.

Practical Course Coach (iPraktikum – Bosch)

Advanced Project Management – Chair for Applied Software Engineering

October 2015 – February 2016

Munich, Germany

- Team coach for the Robert Bosch GmbH team as part of the iOS Praktikum WS 15/16.
- Developed a system that helps Bosch with matching active but also potential new suppliers to current Bosch projects in a smart and easy way.
- Cross-team modeling, architecture, and documentation instructor.

Prototyper

Bachelor's Thesis Project – Chair for Applied Software Engineering

May 2015 – October 2015

Munich, Germany

- Developed a workflow and a web service which enables Continuous Delivery of executable prototypes in early requirements engineering.
- Project will be developed further with theses, guided research projects, and student assistant positions.

Practical Course Participant (iPraktikum – Siemens iCATCH)

iPraktikum – Chair for Applied Software Engineering

October 2014 – February 2015

Munich, Germany

- Siemens iCATCH is a physical interactive interface which combines information, communication technologies, advertisements, games, and other services in the form of a modernized and redesigned Litfass column.
- Mainly responsible for system modeling, architecture, and documentation.
- Headed the "Fun" sub-team, which was responsible for developing a multiplayer rafting game on OS X.

Teaching Assistant

Swift Introduction Course – Chair for Applied Software Engineering

August 2014 – November 2014

Munich, Germany

- Held a 2h talk and prepared the corresponding tutorial about RESTful interaction with web services within iOS and OS X apps.
- Developed a course-matching sample API by using Java technologies (Maven, Glassfish, Jersey, JPA).
- Supported course administration by writing and reviewing course assignments.
- Highlighted by Apple as one of the first Swift courses at major universities.
